Greg – can you hold off responding to the Senator’s office. David would like us to confirm the yes/no with OGC first.

Good Afternoon Greg,

The answer to your question is yes. I have attached a snippet of the spreadsheet showing the dates of receipt of both the VA Document, VA Certification and the ERP Certification that we provided to the region as well.

West Virginia American Water has 5 systems in the region.

V/R

Nushat

Nushat/Karen – please see the below request from Greg Spraul. Given that this is about the WV chemical spill, we'll need the response ASAP. Thanks, Rosemary

Rosemary can you guys get back to greg on this.

Thanks

Subject: Senate EPW majority request for VA/ERP data on West Virginia American Water

David and Debbie,

Senate EPW (Sen. Boxer's office) would like to know if West Virginia American Water submitted a VA and certified an ERP to be in compliance with the BT Act.

Can you find this information out? Is the yes or no answer releaseable?
